Are you tired of leaky valves and seams? The LV9 is a guaranteed non-deflatable. And with the optional reinforced sides you will be able to store it on your transom davits with confidence. The LV9 is a small, convenient package that slips easily between the wheel wells of a standard full sized pick-up for transport and will make a great accessory for your yacht, lake, or beach getaway.

## STANDARD FEATURES

- 100% Composite construction (completely wood-free)
- Hull side reinforcement for davit support
- Unique twin hull design with tunnel lift appeals to shallow water enthusiast as well as those who like to fish in deeper waters
- Buoyancy in twin-hull design allows more load bearing capacity, shallow draft, quicker planning, and a smoother ride
- Twin-hull design provides more interior space than competitively sized mono-hulls
- Twin hull design performs with smaller, lighter, and less expensive motors for better fuel efficiency
- Constructed with high-gloss MAXGUARD exterior gelcoat, 24-oz hand laid woven roving, and durable flat interior finish with contrast webbing
- Reinforced outboard transom, fabricated with 1" thick Penske composite board encased in fiberglass, will not rot
- Laminated-in fore and aft foam-filled seats that will not absorb water plus a laminated floor that seals each sponson creating two separate air chambers provide tremendous buoyancy and stability
- Curved SPRAY GUARD gunwale & protective gunwale edge trim
- (2) transom thru-hull drains that self-drain while underway
- (1) Stainless bow eye and (2) molded oarlock sockets
