A BETTER BOATING EXPERIENCE
BUILD A BOAT THAT'S TRULY YOURS

At World Cat, you get all of that comfort without sacrificing power or performance. We give you more ways to cruise, fish, dive, and explore the water world around you. Your World Cat dealer can help you create your ideal boat, including choosing from one of our five optional hull colors.
(Available in full hull color or two-tone color.)

Shadow packages available on select models.
When it comes to delivering a better boating experience, a World Cat boat beats a monohull two to one. That’s because the catamaran design of a World Cat helps to eliminate the pounding, slapping, and jarring you get from running a monohull boat. Instead, you get a smoother, gentler, more stable ride in virtually any condition.

That means you can enjoy being out on the water longer, going farther, and coming back without the bumps, bruises and physical exhaustion you get with a monohull. But, that’s just the beginning.

Consider some of the key advantages of owning a World Cat:

- A soft ride with high-speed performance
- More stability at rest
- Greater handling in all kinds of seas
- Shallower draft for traveling in ‘skinny’ waters
- Greater load bearing capabilities
- More usable deck space
- Commercial grade dive ladder
- The ability to fish off the side without listing
- Superior get-home capability
- Easier docking and maneuverability
- Greater fuel economy
- Higher resale value
